

SUMMARY OF NEWS.
Killing such for the soldiers has been very properly become the fashion of the day and evening both. The ladies of the Ninth Presbyterian Church of Philadelphia have resolved to knit at least two pairs of socks each for the volunteers, and we notice that all over the North and West knitting-needles are busy in the same good work. The New Bedford Mercury states that Mrs. Samuel A. Fraser, of Duxbury, is now engaged in knitting stockings for soldiers in our army. She was employed 25 years ago in knitting stockings for the soldiers in the Revolution. She is now 92 years of age.

Rev. Dr. Duffield, of Detroit, has two sons in the Michigan Ninth—the Colonel and Adjutant. He has ordered a handsome flag for the Regiment from New York, at his own expense.

It is stated that the Secretary of War is becoming impatient with the expense of Band music for the army. It already amounts to a sum that will make this single item of expenditure four millions a year. He thinks it "paying too dear for the whistle."

Brig. Gen. Pierce, who commanded our forces at the Great Battle of Gettysburg, is now serving as a private soldier in Col. Fletcher Webster's Massachusetts Regiment. This may be called doing "wonder work for the cause."

The U. S. Government has bought 20,000 percussion muskets of the Prussian War Department. They have been shipped from Hamburg for New York.

Another terrible result of the careless use of firearms occurred in Champaign county, Ohio, on Monday. A led in sport pointed a gun he supposed was not loaded at the head of the little daughter of Mr. Nullinger, pulled the trigger, and killed her instantly.

The great comet which attracted so much attention last summer while it lay stretched across the heavens, is still seen with a telescope not far from the star Eta in the constellation Hercules. It is entirely shorn of that wonderful appendage known as the tail, and nothing remains but a nucleus enveloped in a nebulous cloud, the whole not unlike in appearance a small planetary nebula.

The London correspondent of Wilke's Spirit asserts, in relation to the challenge of Beaumont not to be accepted. No man is to be found in England willing to stake \$10,000 against him.

The Washington (N. C.) Dispatch announces that Mr. Selby Spencer, of Hyde county, has succeeded in raising ten or twelve bushels of green tea—the valuable China tea—on his premises the present year. The seed was obtained years ago from an English captain, and the Dispatch thinks that Mr. Spencer's experiment demonstrates that it can be successfully raised in North Carolina. It is said to make a beverage nearly equal to the China tea.

In response to the call of Gov. Dennison, the patriotic citizens of Dayton held a public meeting on Saturday evening, appointed a Sealing Committee, and by 6 o'clock last evening had procured fifteen hundred blankets, besides large quantities of overcoats and other clothing, for Ohio volunteers. That is the way to do it.

A TON OF SOAP.
Embracing every variety, except soap, just opened at the Book Store. A splendid shaving and washing soap among the lot.

THE UNION TO BE SAVED.
FOR the purpose of saving the Union the undersigned will raise a fund by selling his entire stock of

BOOTS,
SHOES,
LEATHER
& FINDINGS.
From now until the first of April at first cost, and prices or anything I can get. I do this to make room for an entire new stock of boots to commence the spring trade. To raise the Union saving and preserving it I would request those indebted to me by order book account to come along and pay a little on what they owe. I must have money. I am in debt and must pay.
Feb. 14, 1861—26 C. HATT.

Skeleton Skirts.
FOR Ladies and Misses of all ages, just received at the Book & Variety Store. These are undoubtedly the best lot of Skirts now offered for sale in Millersburg.

Scrofula, or King's Evil,
is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. It is the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by malarious fevers, low diet, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children, and to the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or unhealthy matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, depresses the energies of life, so that the scrofulous constitution not only suffers from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not so serious in the nature, are still rendered fatal by this taint in the system. Most of the consumption which directly attacks the human family has its origin in this scrofulous contamination; and many destructive diseases of the liver, lungs, brain, and indeed, of all the organs, arise from, or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,
the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal disease. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Eczema and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Rheumatism, Itch, and Hives, Tetter, Scald Head, Ringworm, Rheumatism, Syphilis, and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, ALL COMPLAINTS ARISING FROM VITATED OR IMPURE BLOOD. It is a powerful "purifier of the blood," is founded in truth, the particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which no health is possible in a contaminated constitution.

AYER'S
Ague Cure,
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague, Remittent Fever, Chills, Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Biliousness, or Indigestion, for the whole class of diseases originating in bilious derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Ague Cure" expels the miasmatic poison of Fever and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever offered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevail, it is a powerful protector. A great superiority of this remedy over any other ever discovered for the cure of this class of intermissions is that it contains no Quinine or mineral, consequently it produces no quinina or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison, but a great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Biliousness, Toothache, and Indigestion, and, in fact, all the ailments which arise from the irritation of the system. This "Ague Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protector to immigrants and persons travelling or temporarily residing in the malarious districts. It taken occasionally or daily will expose the system to the infection that will be excited from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from intermissions if they avail themselves of the protection this remedy affords.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.
